

soundleisure : The Complete Digital Solution

MicroMusic
Digital Touchscreen Wall selector

MicroMusic

Digital Touchscreen Wall selector

From the leading Manufacturer of Digital Jukeboxes comes a real gem! The small but perfectly formed MicroMusic wall selector.

This masterpiece of miniaturisation can be connected to any of the products in Sound Leisure's range of digital audio machines. Due to its small external dimensions it offers the potential to install the MicroMusic close to the largest flow of customers. This unit is a must for sites requiring additional music selection points remote to the main Jukebox location.

Dimensions

352mm wide
496mm high
125mm deep

*Note: A router will be required to allow this wall selector to connect to the main machine. Please speak to a member of Sound Leisure's technical team before installing.

* All details were correct at the time of going to press. Sound Leisure reserve the right to make subsequent changes to specifications or services at any time.
